CHAPTER 26: TITLE: COMMUNITY RELATIONS

SECTION 5: TITLE: LANGUAGE ACCESS PLAN AND POLICY

I. PURPOSE

To set forth the strategies to be implemented in order to ensure persons with Limited English Proficiency (LEP) have meaningful access to all Department services and programs in a manner consistent with Title VI of the Civil Rights Act of 1964, and the 2002 LEP Guidance for DOJ Fund Recipients.

II. POLICY

A. The Department serves a diverse population including many individuals who have a limited ability to read, write, speak or understand English. Individuals with LEP may be capable of communicating through certain modes, (e.g. speaking), but still have limited proficiency in others, (e.g. reading or writing). This Language Access Policy and Plan (LAP) will address the measures taken to ensure that all residents of Suffolk County have equal access to the same high level of police service. The Department will regularly assess the language needs of residents as well as the Department's approach in addressing those needs, and will update this Policy and Plan annually.

B. Department Personnel shall provide all members of the public with equal access to police services and shall not discriminate based upon English proficiency, national origin, or immigration status. Department personnel shall provide free language assistance services to LEP individuals, and shall inform members of the community that language assistance services are available to them free of charge.

C. Use of any of the Department's language assistance services shall not be deemed by any member of this Department as a basis for inquiring into any person's immigration status. No member of this Department shall inquire about or disclose, any individual's

immigration status, unless such inquiry or disclosure is expressly required by law. Members shall adhere to the requirements contained in Rules & Procedures Chapter 16, §4 when taking non-citizens into custody.

D. This plan will be made available to the public in print at Department facilities which are open to the public, and shall be posted on the Department's website. It will also be distributed to community groups throughout Suffolk County as broadly and inclusively as possible.

III. DEFINITIONS

A. Bilingual - the ability to use two languages to a level of proficiency sufficient to participate effectively in a conversation on practical, social and professional topics, and the possession of a broad vocabulary, moderate accent and the comprehension level required for a normal rate of speech.

B. Bilingual Officer/Member - a member of the Department who has been tested and certified to provide language assistance through monolingual conversation in a language other than English.

C. Department Authorized Interpreter (DAI) - a member of the Department who has been tested and certified to provide interpretation services in the performance of official duties.

D. Department Authorized Interpreter List (DAI List) - a list of members of the Department who are authorized to provide interpretation services in the performance of official duties. The Language Access Coordinator shall create and maintain this list and provide access to the Communications Section supervisor on duty.

E. Interpretation - the act of listening to a communication in one language (source language) and orally converting it to another language (target language) by an individual possessing the distinct skills and knowledge of both languages to do so.

F. Language Assistance Tracking Form (PDCS-7042) - the Department form used to capture the circumstances of an interpretation or monolingual conversation in a language other than English conducted pursuant to this Chapter.

1. Whenever a member of the Service provides any type of language assistance, the reporting (requesting) officer shall also complete all pertinent Language Assistance fields within the Online Reporting System (ORS).

2. When ORS is not required, a paper version of the Language Assistance Tracking Form (PDCS-7042) shall be completed by the reporting (requesting) officer. The

Language Assistance Tracking Form is available via the Department Intranet under the Online Forms category.

3. The completed paper version will then be submitted to the reporting member's supervisor for review and endorsement; the endorsed form will then be forwarded to the member's administration office, or functional equivalent, for entry into the online records database.

G. Language Access Coordinator (LAC) - the Commanding Officer of the Community Response Bureau (CRB) is designated as the Police Department Language Access Coordinator.

H. Language Access Plan - an administrative roadmap that explains how the Department will implement measures to provide meaningful access to police services to persons with limited English proficiency.

K. Limited English Proficiency - individuals whose primary language is not English and who have a limited ability to read, write, speak or understand English. LEP designations are context specific: an individual may possess sufficient English language skills to function in one setting, but these skills may be insufficient in other situations. For example, an individual may possess sufficient English language skills to explain a motor vehicle accident, but may find these skills insufficient to describe the circumstances of a domestic dispute.

L. Primary Language - the language in which an individual most effectively communicates. Department personnel should avoid assumptions about an individual's primary language, and make every effort to ascertain an individual's primary language to ensure effective communication.

M. Source Language - the language of the original document or the principal speaker.

N. Target Language - the language into which someone translates or interprets.

O. Temporary Interpreter - any member of the Department, or the general public, who is bilingual and capable of interpreting from the applicable source language into the required target language.

P. Translation - the replacement of written text from the source language into an equivalent written text in the target language by an individual possessing the distinct skills and knowledge of both languages to do so.
